a political statement from
Prarie Fire, a book by the Weather Underground, is a beautiful
lesson on the meaning of revolutionary internationalism. It should
be studied by all revolutionaries, especially whites. White revol-
utionaries must see clearly that ~~XXXXXX~~ it is suicidal to post-
pone the revolutionary mobilization of ~~XXXXXX~~ the advanced
elements of the white working class. The whole world is watching to
see who will join the fight.

The American ruling class is a small group of fascists who
are repeatedly learning that their days are numbered. Their coll-
ective epitaph has already been written and signed by revolution-
aries the world over. We have been called to battle and each pig's
deliverance will be welcomed with the song of people's justice.

Nat. Chavirion > Way

Clearly we are not at war with the so-called "average person on the street," yet there are some misguided elements from among the poor and working class who have been brainwashed into siding with the ruling class and against the revolutionaries. We do not see these people as our enemy; rather we want our actions to speak to them, to expose reality, to raise their consciousness and to awaken their sense of unity with other oppressed people. However during any tactical operation we must often deal harshly with reactionary individuals who try to emulate John Wayne heroics. In these cases we don't have time to educate or debate; instead we must state with force if necessary that no person will stand in the way of our comrades who fight for the freedom of all people.

Q2125

If we are fighting together, then I think that the main aspect of our solidarity is extremely simple: it is to fight.... You must find the best means and the best forms of fighting against our common enemy: this is the best form of solidarity.

Clandestine urban guerrilla warfare complementing and supporting the work of the mass front in the communities, prisons, schools and places of work continues to build the nucleus of the people's army. Here in the US, the home base and headquarters of ^{an international} our enemy, ~~we~~ ^{* guerrillas} find that the number and variety of potential targets are so extensive that the agents who guard imperialism can never protect every vulnerable area. Guerrillas can use their advantages of mobility, creativity and surprise by striking hundreds of different places, always where we are least expected. However, the continued success of the guerrilla forces ultimately depends on our ability to represent the true interests and needs of the people and thereby win their support in the building of the people's army. Guerrilla warfare with the support and active participation of the masses can't be defeated. Even the Pentagon can't argue that point after the US defeat in Vietnam. Guerrilla warfare must be clandestine, but this does not imply isolation from the people. Rather it represents the desire of the guerrillas to survive by living anonymously among the people where the enemy cannot locate and destroy them. In the US, guerrilla warfare must be urban. The majority of poor and working people live in the cities where both the means of production and the offices of corporate power are concentrated. The urban areas present the greatest contradiction between oppressor and oppressed and as such have become the battlefield.

movement has attempted to eliminate women's oppression by finding more places for them within the capitalist system and by trying to make the capitalist system more responsive to the problems that have prevented women from being as successful as men. *The ruling class through its feminist mouthpieces* ~~praises~~ praises the success of a few women who "make it" in the cut-throat business world and ~~see them~~ *projects them* as an indication of good things to come for all women, largely ignoring the plight of poor and working class women whose lives are getting more desperate as the cost of living jumps, ^{work becomes scarce,} government spending is slashed and capitalism declines into another one of its inevitably recurring stages of recession and depression. Feminism for too many middle class women is a fad, a search for self fulfillment, falling into the same category as trans-actional analysis, encounter group therapy and the Maharaj-Di -- an escapist attempt to find self in ~~XXXX~~ isolation from the plight of the masses of poor and oppressed.

Q. The media often presents groups like the SIA as "terrorists at war with society" and tries to imply that they are somehow at war with the average person on the street. Perhaps the SIA can dispel some of these misconceptions by clarifying who your targets are and what tactical and strategic guidelines you follow in carrying out your revolutionary objectives.

A. We define our enemy as all members of the US ruling class and all those who administer and protect US corporate fascism and imperialism. The ruling class is a small elite group of families and individuals who control the giant corporate monopolies and who use the power of their wealth and influence to control the US government, the US military and police forces, the media, ~~the~~ educational ^{cultural institutions} system as well as countless governments throughout the world.

[The Rockefeller family's] wealth is about as much as all the Blacks, Chicanos, Indians, Puerto Ricans and forty million poor Whites in the US have put together. (Weather-Underground)

In this initial stage of armed struggle, urban guerrilla warfare is the strategy employed by the SIA and the entire guerrilla front to attack our enemy, to mobilize poor and working people and to build unity. Struggling people often have not been able to work and fight together in this country due to racism, sexism, sectarianism and national chauvinism. The SIA does not say that all progressive forces must first achieve unity before ~~we~~ we begin to combat oppression because we have seen proof that armed struggle itself can serve as the ^{catalyst} catalyst for bringing revolutionaries together. ~~Unity can only be built on trust~~ ^{the} ~~total commitment~~ ^{total commitment} ~~that has been demonstrated by~~ ^{active participation in} ~~total commitment to all forms of~~ ^{revolutionary} struggle. of a pig assault we felt it would be safe to give her live ammunition. She would still have been closely watched due to our natural mistrust, but it was clear that she saw the FBI as her enemy. Even so, we regularly checked her cell to be sure that she hadn't squirreled away any ammunition, and she remained blindfolded as a security measure.

THEIR XISNIX
The struggle that preceded our decision to arm Tania wasn't a long one. This decision was based upon our collective political outlook and the practicality of the current situation. It also had a positive effect on the people who could see through the media hype and FBI propaganda that portrayed us as insensitive killers of "liberal educators and children."

C. As Tania's XIKIXIKIXIS interaction with members of the cell on the political and social level evolved, her relationships must have broadened on all levels including the sexual level. Did this cause any conflict within the cell? * Page 8+9

Cont from P. 8+9

A. The WHOLE question of Tania having sex with any cell members was something that went through a kind of an evolution. We didn't even consider the question at the beginning because we had made certain assumptions about her relationship with Meed and her state of mind under the conditions of revolutionary arrest and confinement. The initial focus of the sex question was clarified that first night of her arrest when the Codes of War were read and explained to her. She would in no way be used or exploited sexually.

Bo-- an ex-member of Venceremos; had a lot of military experience because he spent 18 mos. in Vietnam as a ~~xxxxxxx~~ combat soldier on reconnaissance teams; one of the few white people who went up to Wounded Knee with the intention of using arms to help the Sioux nation defend its right to self-determination.

Casi & Bo-- When they were in San Quentin there were several occasions when the pigs tried to set them up by attempting to escalate the racial tensions and divisions by trying to get Blacks to attack these brothers because they were white. But there was too much unity between these two brothers and the other prisoners; When they hadn't even been arraigned, sentenced or convicted of a crime they were put in the "hole" at San Quentin, a state prison, for "security reasons", and while they were there the pigs took them on a tour of the gas chamber where pigs hurled insults at them and said that they'd be sent to that place again soon; They were beaten by the pigs on the way to court one morning because the pigs couldn't get the prison to do it.

Fahizah-- name means Victorious; deep understanding of what it's for bl. people to live in this country; married Gilbert Perr and for a long time didn't have anything to do with white people but was mostly around bl. people; spent 24 hrs. a day making herself a rev. learning from Cin and other people and teaching by example; incredible self-discipline and determination to eliminate her weaknesses; never wasted time; she taught us to struggle with our comrades but to reserve our anger for the enemy.

Zoya-- Her rev. consciousness grew out of her involvement in the women's struggle; Aggitated for better job opportunities for women at ther job at the library; hid Cin out after he got of prðson which many people wouldn't do; She struggled with cin around his sexism and Cin struggled with Zoya around her racism, and she realized that there were many things that she could learn from him about what tactics to use to bring this fucker down

Gabi-- She was a lesbian; She and Zoya were lovers in the past and Zoya really helped move her forward; like Zoya she realized that she couldn't struggle to free only women and broadened herher support of struggles to include all oppressed groups etc. in this country; She was more together than any one else around sexism; realized that she could learn alot from the men in the cell and was detérmined to do so

Gelina-- really maligned by the media; really developed quickly after she got out of a shitty marriage that fucked both her and Gary up; When she wanted to understand a question better she put ~~all her energy~~ all of her energy into it; strong convictions and not afraid to ask questions; she kept morale high among the comrades; She changed her body from a weak, useles body into a body that a guerrilla soldier can use to defend themselfx with; really used her own inititative to learn things and she learned from her mistakes instead of asking someone for answers.

Kahjoh-- name means Unconquerable; participation in BCA; developed an intellectual understanding of rev. into practical understanding; struggle to be disciplined cuz of his background of ~~hippie~~

Q. How did you become a revolutionary that down? Since you ~~were not born a revolutionary~~, Teko, how did you come to be what you are? ~~Maybe you could start from the beginning.~~ I think it's important for you to go into your background. Where did you grow up?

A. ~~After living a couple of years in Oklahoma and Oregon, my family moved to Indianapolis, Indiana where I grew up in a White working class neighborhood.~~ My father was a salesman. In 1957, when I was twelve, my family moved out of the city. During this period, the exodus of whites from the city to the suburbs began to accelerate. I spent the next six years of my life in a racist white suburban community north of Indianapolis.

My father ~~was~~ bought a lifetime mortgage on a new house next to a golf course. That was his idea of utopia--he was a golf addict.

I graduated from high school in relative obscurity and when I was 18 I enrolled at Indiana University in Bloomington. At that time I was a rebellious conservative, a closet anarchist. I detested all forms of authority but politically I was very naive. My family was republican, "the flag and apple pie", like the rest of Indiana. ~~But~~ They didn't force-feed me their ideology, I sort of picked it up by osmosis. I was cynical, distrustful politicians, hated rich people, always sided with the underdog; but was mostly interested in drinking beer and watching jocks run back and forth. My grades were horrible and after four semesters they threw me out. That was in 1965. I hit the road, thinking it would all be easier in "the promised land", and ended up in San Francisco. I was having a hard time

Q2126

looking for you on a much more systematic basis. How did you react to that?

A. Teko--Again, we had all talked about the potential problem of being separated due to ~~us~~ being jammed. Our first priority was to deal with the ^{security of} ~~three of us~~ ^{security}. We had to make sure we'd lost any tails, any pig activity in search of us in particular, and then attempt to, ~~in a~~ ^{in a pre-arranged} ~~secure manner~~, to hook up with our comrades again. This is ^{manner}. what we were attempting to do... ~~As~~ ^{it} turned out we made a serious error in the course of switching our cars at one point that potentially ~~led to~~ ^{aided} ~~the pigs finding our comrades~~ ⁱⁿ ~~and we forgot to take the carrying case that we'd left in the van which we'd used to hide our machine guns when we went out. In this carrying case there was a working ticket that we were supposed to have... one of our duties that day was to be mailing off, and because of this working ticket they found out about the house that we'd been staying in-- all nine of us before we were to split up into teams. Our comrades had split that house as soon as they had heard on the radio that we had been jammed at the sporting goods store, which was a natural security precaution that they would normally take... but there's a possibility that ~~the first~~ ^{because} ~~that they~~ ^{the pigs} found out about that house ^{thru the pigging ticket} and learned some things about the vehicles that ~~they~~ ^{the comrades} would be moving in, that they ^{from the neighbors} ~~all this~~ could have located them later. Now we're not really sure about this, but it's a serious error that ^{potentially} could have led to the shoot-out. It's one of a number of things that happened~~

switched to another car. Mostly it was items we had bought that day. It was just too much to carry considering the way we were having to move. Due to our oversight we left one bag in the van that contained a parking ticket that ~~had been~~ received ~~on~~ was for a violation outside our 84th St temporary safehouse.

took whatever training or activity you've been involved in ^{during} the past three months. Could you tell me something about that and something about how you see the future?

Q2176

A. Teko-- Well, as we said earlier, we had done some amount of work making contact with progressive elements in the Los Angeles area and we weren't totally isolated as is clear by the fact that we're still here. We're still free, and we are still fighting. ~~The thing to understand is~~ Even before the shoot out we considered ourselves to be in a mobilization period, and we still ^{are} in this stage of development ~~in a mobilization period.~~ ~~and that's what we're doing, we're mobilizing...~~ ~~and during this period of mobilization we will carry out~~ ~~actions.~~ For obvious reasons we can't speak about what we're ^{tactically} going to do next, or what we're going to do in the near future, or specifically what kinds of tactics we are going to employ in the course of our participation in guerrilla warfare here in the United States.

Yolanda-- Mainly we're not looking back too much... one of the things that Cin said to us before we went out to the store that day was, "Remember, anything that happens is always for the best," ~~and~~ He had no way of being able to predict what would eventually happen ~~and~~ that he would die and that we would live and carry on the ^{work} ~~message~~ of the ^{revolution} ~~and~~, but we're determined to do that. ~~and to do that~~ Our main emphasis has to be on looking forward to what we can do next-- what we can do after that, and training, preparing ourselves so we can do it well with a high degree of success. *We have*

learned and grown stronger by studying our past

Q2177

Know that the inexperience of revolutionaries agst the sophistication of the pigs will result in death and imprisonment of righteous comrades as we learn & get our shit together in these early stages of development. above ground on a regular or serious level. And the sad fact is that most of the above ground "politicos" denounced the Weatherpeople as "adventurists".

The main things to understand are that the effect of the anti-war movement was truly a people's victory. The big victory was that of the Vietnamese people who accomplished what some thought was impossible. And to truly understand the effect of the anti-war movement on the successes of people's war in Vietnam we must give a lot of credit to the work of anti-war CIs. It may not be clear to a lot of the veterans of the student movement, but the CIs started to come home when it began to become clear to the pentagon that it was getting increasingly more difficult to force young Americans to give their lives for some greedy capitalist or fascist dictator.

The demonstrations around the invasion of Cambodia were the peak of the mass student participation in the anti-war struggle. It was increasingly demoralizing after that.

I think a lot of us began to understand that there just wasn't a whole lot that you could do in the university, that if we were going to effect change in this society we were therefore going to have to connect up somehow with the people in the community. The students were a minority and the issues we rallied around on the campuses oftentimes didn't reflect the over all situation in the whole society. A lot of the people in the community that surrounded the university that Yolanda, XXXXXX Golina, and I went to saw the student population as their direct enemy. * (next page insert) Of course a lot of this feeling was

from the local peoples perspective was that students cared more about getting drugged up and "causing trouble" than ending oppression. They also felt that ^{the "rich kid"} students were responsible for the high rent that the community had to pay to the greedy slum lords, or that students with part time jobs were taking away their jobs or helping their bosses keep oppressive ceilings on their wages because the students worked for less. The so-called youth culture with its anarchistic emphasis on individuality really played into the hands of the pigs and made the division of progressive forces and their ~~XX~~ most potential allies a crippling reality. The "youth culture" was not a totally negative stage, many of us graduated from it and continued to progress. Bourgeois individuality is still one of our main enemies, however; and many aspects of the student experience have reinforced this sickness to the point of terminal illness.

*(previous page) About two thirds of the people in Bloomington were very poor, that's out of about 35,000 people not connected with the university. That the students could be thought of by the local people as their ~~XX~~ enemy is to my way of thinking a result of the movements failure to deal with a practical revolutionary reality. The student/^{movement} supposedly had its roots in ~~XX~~ at least the intellectual capacity to understand objective reality. ^{In Bloomington} ~~There were~~ many "comrades" didn't understand that the "future administrators of ameriKKa" weren't the only people fucked over by the war in Vietnam. We issued the death warrants because we had conclusive evidence that these three were ~~talking to~~ offering information on the guerrillas by ~~talking~~ ^{offering} to the pigs. Take -- we were pretty concerned that because of the number of pigs in the area -- the FBI had supposedly committed as many as 1000 agents, many of whom were operating in the SF area ~~the~~ and the number of military personnel ^{stationed there} ~~that are in the area~~ that they were waiting for us to do another operation and once ^{we} ~~they~~ did do something they would seal the area off so that our mobility would be completely eliminated. ^{might be able to use their unlimited resources to discover} ~~they would have a general idea~~ of ^{general} ~~specific~~ ^{of the city} areas that we might be in. We figured that we would be taking too much of a chance by continuing to operate ~~and that our mobility was potentially limited which is something which cannot be allowed on the level of guerrilla warfare~~ -- ^{mobility} ~~it's an aspect of our fight~~ ^{guerrilla warfare} that has to be totally to our advantage if we are to survive.

question
C. You mentioned the Zebra killers, who I think were a handful of Blacks who according to the accounts I read, murdered Whites indiscriminately. Unfortunately because of the timing of those killings in relation to your own operations you became identified in a lot of people's minds more or less along side the Zebra killers -- sort of as another one of those groups. In fact what do you feel about the political effects of the Zebra killings and the Zebra killers themselves?

Q2126

A. Toko -- We don't know who the Zebra killers ^{are} ~~were~~ -- we don't know if it was a plot hatched by the CIA, ~~or~~ the FBI ~~or~~ the SF police dept. or Mayor Alioto's office or whether indeed it was a group of nationalist ~~white~~ blacks, ^{whose desperation} ~~would assume that the pigs were mixed up in it somehow.~~ ^{turned them against all whites or representative of the oppress}

C. ~~Why would you assume that?~~

A. Toko -- I'd say you'll notice that the ^{men accused of several of the killings} ~~group of people~~ who have been linked up with the Zebra killers ~~is the~~ ^{are connected with the} nation of Islam. ^{a group that the pigs have always harassed Malcolm}

Yolanda -- And the killings that the so-called suspects are charged with aren't even the so-called Zebra killings. They are charged with other murders that happened at a similar time. One of them were even charged with so-called Zebra killings where whites were shot down on the streets.

Toko -- ~~We feel that a good possibility might be that~~ Alioto was attempting to run for Governor. ^{at the time} ~~there was a lot of propaganda that came out --~~ ^{Also} there was almost a general strike in SF not too long before the Zebra thing really ballooned. Alioto is supposed to have so much support from the working class - he's supposed to be a union sympathizer. He helped trash that strike ^{which} ~~because a lot of~~ ^{many} involved city employees. He had to get back and regain some of his support by keying in on the issue of racism, by trying

 time a number of his campaign offices were bombed in Southern
 Calif. and we had a suspicion that he may have been respon-
 sible for the bombings of his own campaign headquarters.
 Allioto has not been a very loved person in SF or the Bay Area

Q426

Q. Well anyway you eventually moved to Los Angeles and a majority of you at least found yourself in hideouts or safehouses in the Black community. Why was it that a predominantly White group found itself hiding out in a community where comparatively few Whites were normally seen.

A. Tania -- ~~We had gone to LA and were staying in a temporary safehouse. We decided to stay at this place in the Black community because...~~

Yolanda -- ~~Mainly what we were in the process of doing in LA before we started to run into trouble there was to attempt to set up a network there that would support us as guerrilla fighters and would allow us to be in touch with the Black Brown and White Communities.~~

Toko -- ~~We were basically attempting to enlarge a network that already had some beginnings altho they were small.~~

Tania -- We were preparing to split up into three teams. That was one reason why we were in a temporary pad. Considering that we would only be in the community living that way for a short time, ^{we felt it} ~~it~~ was better to be there ~~INSTEAD OF~~ where at worst the people in the community would think we were pigs or honks than to be in a community where the people might call the pigs because they were wondering who we were.

Toko -- It was a fact that people in the immediate ^{Around 84th St} community ~~where we were (not where the shoot-out was on 54th St., this is on 84th st. about 3 miles south)~~ had suspicions that we were undercover pigs we learned from our contacts in the community. The situation was that we were not about to go and tell them that we were not pigs, that we were the

Q2126

SLA because we realized that there was a lot of money out for us and there ^{were} ~~are~~ opportunist elements in ^{the} ~~the~~ community that we couldn't trust -- there is a lot of dope in the community. We didn't want it to be common knowledge that elements of the SLA were in the community. We felt that it was better that the people felt we were undercover ^{and} which would mean that they wouldn't necessarily go to the pigs to say, "Listen you better go get these undercover agents out of our neighborhood." Blacks don't generally have a whole lot of interest in working with police in the same capacity that Whites might. We felt that for a relatively short ^{would} time we ~~might~~ be secure. As Tania pointed out, it was a temporary thing. We weren't going to be there for more than a couple of days.

Yolanda -- It had become clear to us that it was not safe for us to continue to move around as nine people or to live together as nine people so that was one of the purposes of splitting into three teams of three people each. The splitting into teams was a military/political decision that weighed the military strengths and weaknesses of each of the comrades and then combined people to form the best possible teams so that those teams could exist fairly autonomously and then come together around particular actions or to learn particular skills as a unit. We weren't creating three new cells; we were creating three teams that would live in different locations, and the ideal place for us, since two of the teams were composed of all White people and one of the teams was composed of one Black and two

Q2126

our way out of the situation. What happened in reality was that we had gone out that day to buy ~~some things that the cell needed and we felt at the time that the things that we needed which was combat clothing~~ ^{that the cell needed immediately and} that had to be specific kinds of things, ~~we needed immediately~~. We didn't feel that we had time to train some of our contacts to go out and get the stuff for us, and we wanted the stuff right away. We might have been too impatient. We went out to EK do the shopping and at one store ~~after~~ ^{after} we had bought over \$30 worth of items like heavy duty socks, wool hats, sweat shirts, etc. ^{As} we walked out ~~and~~ one of the clerks came out and told me I had to come back in. He told me he wanted to check me because he suspected that I had shoplifted. ~~A problem resulted at the time because of a kind of hesitation on the part of Yolande and myself. Instead of reacting knowing that I couldn't go back into that store because if I went back in for a search, they would have seen that I was illegally carrying a concealed firearm and it was likely that then they would find out who I was. We know we had to take control and possibly fight our way out of the situation by force, but as I said we were kind of dumb-founded for a second -- we were amazed that we were being jammed around shoplifting when there was no reason for it. Instead of reacting very quickly and dealing with that with the confidence that situation by force -- there were two of us and one of him and we were both armed and he wasn't -- we got into a physical struggle before we even got our pieces out. Meanwhile, we hesitated and allowed ourselves to get into a~~ several people in the store and ~~one guy who jumped out of~~

Q2126

~~XXXXXX~~ and one motherfucker even stopped his car and rushed over to get in a few licks. By this time, there were three "heroes" disarming and trying to handcuff me and another great big gorilla had Yolanda in a bear hug. So you can see that the hesitation really fucked us up. Fortunately Tania, by then realized that what was happening and opened up with a machine-gun, ~~and then they realized that this helped them realize that~~ *There* ~~they would be safer if released us and got back into the store.~~ *they realized they* ~~they would be safer if released us and got back into the store.~~ This gave us the time we needed to get back to the van and move out ~~before they were able to accurately return the fire.~~ One ~~of them~~ *Sucker* fired on us with the hand gun they'd taken from me; and luckily he was a bad shot because it was armed with cyanide bullets.

Tania -- I had been watching, on and off, from across the street in the van, looking to see where they were because it was taking a long time to do the shopping. ~~And at the particular time that they came out of the store I was looking~~ *I glanced down at a newspaper if* ~~down and~~ when I looked up there were all these people and I couldn't tell what was happening, ~~at first~~ because *my view was obstructed* ~~of the~~ *by* street divider, ~~some shrubbery;~~ *and* then I saw Teko's head pop up from underneath ~~a~~ *a* pile ~~of~~ *of* ~~garbage~~ *garbage* and that's when I opened up with the machine-gun. All our reactions were too slow.

Yolanda -- Yeah, we all had a basic problem around the hesitation ~~XXXXXXXXXX~~. We also came to realize that it is foolish to send "hot" combat elements to do work that support elements can easily take care of. Our mistake was getting impatient for much needed supplies. Support elements can usually function above ground effectively with-

Q2126

Toko -- Aside from the initial hesitation, once we got our shit together, ^{and got moving} everything went very smoothly. ~~Once we got moving everything was cool. We even passed a motorcycle pig as we were about to pull out of the parking lot and he didn't know what the hell was going on. We went about four blocks, turned into a residential area and pulled a switch, took another car... ditched ours and grabbed another one from a couple of cooperative people. We then went another couple of blocks, this car broke down but we just borrowed another one from some other very nice people. Then we split the area.~~

Yolanda -- ~~The reason we were able to do this so easily was that~~ we had previously discussed at length what we would do in situations like this, switching cars and so forth, it wasn't just something that we did off the top of our heads. It all came out of military preparedness.

Tania -- Hesitation is a very serious problem and white middle and upper class people have to really guard against it. Sometimes you get the feeling that you can talk your way out of a tight situation. In a police state, revolutionaries must realize that to try to talk your way out of an arrest is suicidal.

dealt with in a different fashion, and ~~potentially the prob-~~
~~lem wouldn't have happened...but, that's essentially the way~~
~~it came down.~~ As it's clear, we maintained our security,
unfortunately our comrades weren't able to do so with theirs.
We don't really know ^{exactly} what happened. The same thing can be
said for the events that brought about the capture of our
other comrades, Osceola and Bo. What I mean is, we're having
to rely on the media to find out the particulars of these
events. And looking at these ^{events} ~~things~~ critically, ~~we can see~~
~~potentially, or make assumptions about criticisms or things~~
~~to learn about these situations.~~ *we can learn ways to prevent the same mistakes from happening in the future.*

Yolanda-- ~~The media has~~ ^{so consistently lied about}
things that we've done, it's very hard to rely on them for
information. ~~There's~~ ^{There's} some military errors though that
~~we've kind of gotten~~ ^{become apparent} by reading between the lines of news
papers and listening to TV, and even if these errors didn't
actually occur we'll take the lesson that we learned and ~~trying~~
^{to ensure} that ~~at least~~ we don't commit them. One of the potential
problems was that the six ^{comrades} ~~people~~ only went about three miles
away from ^{our} the temporary safe house ^{on 84th St.} ~~that we've mentioned be-~~
~~fore, where,~~ Los Angeles is so big they could have gone
miles and miles away to more outlying areas ^{safe houses in} ~~to safe houses~~
~~that we had already secured through our network. But, yet~~
~~they went to this closer house.~~

Tania-- ~~They seem to have been taken there... for some~~
~~reason they decided to go...~~

~~And then there was the question of people going in and out of~~
~~the house, too.~~

Yolanda-- ~~==~~ ^{of May 17} It came out in the paper that through
out the day ~~at this house~~ ^{neighbors} there'd been ~~community~~ people
in and out of the house to speak with Cinque and the other
members of the SLA staying there, and ~~so~~ ^{our comrades had} apparently some amount
of trust ~~had been built up~~ that these people were not going
to go to the pigs. ~~==~~ The people apparently dug talking to
soldiers of the SLA. But then later it seems that an older
woman, a mother of one of the women who lived in the house,
came and the SLA soldiers reacted to her in a similar way...
they felt that she should have the freedom to come and go
without realizing that ^{maybe} because of her age or because of her
mistrust of white people in her daughters house, especially
white people who are armed, that she might be afraid. ~~== this~~

started to understand the relationship between sexism and class oppression. I realized that as much as I needed to struggle with Teko or any other man on a personal level, my enemy was not all men as a group. My oppression as a woman was the result of an economic system, US imperialism, and a society and culture that are defined and controlled by men. Sexism like racism, functions as a tool of those in power and permeates all levels of society to keep people divided, passive and confused. Q2127

Both Teko and I were heavily influenced by the events of the late 60's. People were being beaten up in the streets of Chicago. Martin Luther King was assassinated. Cambodia was invaded by the US government resulting in mass demonstrations on the campuses and in the cities and the murders at Kent State and Jackson State. Black Panthers were murdered in Chicago, Oakland and LA. I was generally confused and pessimistic because I ^{still still} had questions but no answers. I could see that a lot of things were fucked up about this society and my personal way of living, but change seemed like such an overwhelming process because the US government was totally opposed to the people's desires for a better way of life.

In the Fall of 1971 Teko and I linked up with some progressive people in Bloomington. We all studied and talked about the struggles of the people ^{throughout the world} ~~in the Soviet Union and China~~ to destroy imperialism and develop socialism. I really ~~ENI~~ got high reading about the freedom fighters in Vietnam, kicking the fat ass of US imperialism. But, my intellectual notions of revolution and my bourgeois longings for peace and an easy victory held me back from accepting the historically-proven fact that the conditions for change in this country can be built only through armed struggle. I still had the unrealistic dream that revolution could occur through gradual change in the consciousness of millions of Americans, who would then democratically "elect" socialism.

21

and ~~the complementary~~ ^{an} society & culture that are defined
and controlled by men. ~~sexism~~ like racism functions
as a tool of those in power and permeates all levels
of society to keep people divided, passive and
confused.

Gelina was a beautiful example of determination. At first, she was so physically weak that she could only do two or three push-ups, but she worked at it every day until she was doing 5 sets of 20 finger tip push-ups. She boosted everyone's morale by always attacking problems with a positive attitude.

Zoya, like some of the rest of us, didn't have much practice in being physically aggressive because she had always been a very gentle person, but one day at the Concord safehouse, she proved she really had her shit together. The doorbell rang; Zoya looked out through the peekhole and saw a boy of about 13 or 14, who she assumed was the paperboy. When she opened the door, she was looking down the barrel of a .22 in the hands of a ~~young~~ young kid. Zoya batted that kid's arm, forcing him to lose his grip on the gun; then she spun the kid around and kicked him off the front porch. In fact, just to give you an idea of the strength and abilities of the sisters in the SLA, I should tell you that the assault team for the Foster operation was made up of two women. Two righteous female soldiers ^{assassinated} ~~the~~ Foster and ^{wounded} Blackburn! (over)

Part of developing an aggressive attitude comes from developing technical skills -- knowing how to ~~KN~~ be a good shot and to shoot first and fast; learning forms of the martial arts, how to use a knife how to crouch, roll and dive. We had to ^{acquire} ~~learn~~ aggressive nervous reflexes. By this, I mean the ~~KN~~ ability to make good offensive decisions in a combat situation; to react quickly and wisely. We plan each combat operation as extensively and in as much detail as we can, but we prepare for the unexpected by knowing that we must be ready to improvise and do anything to insure our success and survival. Our lives depend ~~on our~~ ability to think fast, remain ~~KN~~

↓ It's hard for them ~~to~~ to understand that female passivity ~~is not~~ and dependence is not part of "women's nature" and that women are ^{in fact} ready to do anything necessary to fight for their liberation. (These pigs consistently attribute revolutionary acts to men.)

The assets of the Hearst Corp.
have been stated many times.
However, I will restate them again
as some specific factors. As we
all know, the Hearst Corp. is
composed of a chain of magazines
and newspapers. However, I wish
to point out two specific ones as
examples. Cosmopolitan magazine
reaps profits of \$7 million to \$8
million per year. Another is
House Beautiful, which reaps pro-
fits of \$3 million to \$4 million
year. The Hearst Corp. is also
composed of, as mentioned be-
fore, a chain of TV stations and
feature film industries and also
ownership of lumber companies
and partnership in large stock-
holdings in General Motors, as
well as land holdings in each of
the cities where the newspaper
operates for example, own-
ership of one square block in New
York City, with the land alone
valued in hundreds of millions of
dollars, as well as land and build-
ings in England and Australia and
elsewhere.

East Palo Alto. That an adequate
number of distribution centers be
made available to various com-
munities in these cities. San
Francisco: Mission District,
Chinatown, Hunters Point, the
Western Addition. Oakland: East
and West Palo Alto; East Palo
Alto.

3. That all foods distributed be
of top quality, and that all canned
goods and dry foods be matched
with the equal amounts of top
quality fresh meats, dairy prod-
ucts and produce. And that no at-
tempt be made to distribute gar-
bage, or culls or surplus storage
foods of government commodities
to the people.

4. That \$70 be given over a
one-month period to each family
coming to receive food. That is,
by the end of one month's time, a
total of \$70 of food will have been
given to each family. This is to
be done during the first month of
operation of the program. If this
means problems of the storage of
food at the distribution centers, or
if it will be a necessity to have
an expansion of the number of
centers as well as the number of
days and hours that the centers
are open.

It has always been the intention
of the SLA and the court of the
people that a substantial number
of families in at least several
communities be able to receive
their amount of food during this
one-month period that would meet
some of their needs in addition to
assuring that the people get
something more than another ex-
tended program which could be
abandoned by the Hearsts at any
time without the people having
either really received anything or

8. That this tape and a trans-
cript be published and printed
in full, omitting nothing, in all
forms of the media.

9. That the total amount of \$6
million be allotted to your design-
ated "Peoples in Need" or
charity organizations within 24
hours of receipt of this order and
that the food be available to the
people within one week of receipt
of this order.

Should this order be rejected, all
further communications shall be
suspended and the prisoner will
be maintained according to the
terms of the international codes
of war concerning prisoners of
war and will be maintained in that
status until such time as the status
of our captive soldiers is changed.
Should any attempt be made to
rescue the subject prisoner or
to injure or capture our captive
soldiers, the subject is to be exe-
cuted immediately.

10. Once we see compliance
with these specifications and the
program well under way, then, as
we have previously stated, we
will begin negotiations for the re-
lease of your daughter. The Court
of the People also wishes to state
that we understand the position of
different political organizations
requested by the court to oversee
distribution of food. We are
stated that refusal to participate is
partially due to the inherent dan-
gers based upon leadership or
the organization as a whole. Af-
filiation with the SLA is created
We also feel that this is partially
due to lack of understanding of
the common enemy, as well as a
desire to accept reform and fed-
eralism which are specific
against true change in revolution.

murder of the then defenseless
people.

In stating these facts we wish
to say that the collective leader-
ship of the SLA would not under
any circumstances or under any
terms compromise our position
or that of the peoples' freedom.
And no one should attempt to
speak for us or assume that they,
by word or action, can compro-
mise any request made on behalf
of the people by the SLA.

At this time we wish to state
that the organizations who wish to
take part in feeding the people
should also cry out for the thou-
sands of children of all colors
who have been murdered and
starved by the enemy state. They
should cry out for the millions of
children of all races who are
starving and dying now and not
just cry out for the safety of only
one human being who just happens
to be the daughter of the enemy of
the people.

Light and cry out in defense of
millions and save the children.
And by this action you will save
also the life of one who has never
seen the robbed or knew that the
riches of her life were the spoils
of a robber and a murderer.

It is in the judgment of this
court that the Hearst family and
the Hearst Corp. seems to be
more foolishly concerned with the
identities of some of the SLA ele-
ments rather than with the ad-
mission to the people of the
crimes committed against the
people by the Hearst empire. That
act of good faith (following is un-
clear on tape. It is a show-
ing) to the people, to the SLA
the Hearst empire should
demonstrate a change of interest,

The guerrilla fighters must form the core of the struggle because unless there is an armed force representing the people the masses will lack the ability to "criticize" the enemy when all legal means have failed or to counter the enemy's attempts to use brutal force against the people. People who can must be ready to join and strengthen the ranks of the guerrilla fighters or to help them when necessary. Meanwhile the guerrilla fighters ~~must~~ ^{must} strive to represent the people's needs and interests and grow into their ~~own~~ army. The guerrilla forces are the proof that the people mean what they say when they declare, "Freedom by any means necessary." Guerrilla warfare and mass struggle together will solidify consciousness and commitment that will be the basis of an army of national liberation. This army will have the total support of the masses and will seize power.

Armed struggle here will encounter specific conditions which may take us a period of false starts and readjustments to take them into account. This is why flexibility is important as we constantly define the means by which our struggle may be successful both in mobilizing masses of people and in destroying the monster.

no other way.

The Federation is a pre-party form of Q2130 mechanism that will be necessary if there is not enough ideological unity to form a party or if a party forms representing only one segment of the population and there are ideological conflicts which prevent it from representing the whole population. For example, a Black Communist Party may form out of leadership elements of the Black liberation struggle. This party may not grow into a party that can lead the other elements of the population, probably due to the racism of the white revolutionaries or the failure of whites to deal with the question of self determination. In this case the Federation would be the mechanism to unite the Black Communist Party with other elements fighting the struggle who have not been able to unite under the Black Communist Party. Or the Federation may be composed of several parties, groups and organizations. If no party or parties grow out of the struggle and demonstrate their fitness to lead because of their understanding and commitment to the people's interests; then the Federation can perform some of the leadership functions of a party but with the inherent weakness of course of ~~the~~ ^{incomplete} ideological unity. This weakness actually means that the leadership role is actually one of coordinate and cooperation — the directing force of the limited front. The party is obviously a more disciplined, efficient and stronger form.

We have a responsibility to teach people the link between the military and the political. We need to demonstrate how political goals can be achieved by military means. We need to be the finest examples of what military skills and knowledge if executed correctly can accomplish in terms of moving the struggle forward. Q2130

Revolution here in U.S. is different than everywhere else! This is the center of imperialist power and fascist centralized and coordinated repression. Historical forces within the working class are unique. Old methods will no longer do because the fascists have learned how to deal with these thru the flexibility of their reforms, false promises, propaganda and other disguises. We must institute new tactics that it's true are illegal but are effective simply because they catch the paper tiger off-guard and unprepared — they make the beast lash out irrationally and expose his true nature. This does not mean we shouldn't learn from history and international examples of others — it does mean that we must take the lessons and ideas of others and understand them, not in a vacuum of past conditions, but in the incredible mish-mash of experiences and realities that make up corporate/military fascism in the U.S.

Fascism always weak or ineffective dissent — it murders & destroys effective revolutionary dissent segments of working class — sick to core

Certain segments have not been so deeply impaired by contra-positive brainwashing and have never had much access to consumer flea market. Their revolutionary potential has not been so diluted and they have far more potential to be the vanguard.

Consciousness alone cannot bring about a revolution altho it forms a good basis.

People today are conscious of their oppression and the ruling class interests of gov't leadership can give the proper direction of consciousness and can inject it with a collective force that will make the revolution.

X Fascism re-organizes, ^{centralizes} and reforms capitalism in response to mobilization of class consciousness by working class and also in response to changing ^{economic} conditions and changing power within the ruling elite (power going from agrarian elite to industrial elite or from bourgeois democracy to monopoly capitalism)

Reform is the primary fascist tactic in this present state of undeclared war.

Internatl Corporate fascism has failed ^{to pacify} in two key areas

1. Third World poor & working people in U.S.
2. Third World victims or potential victims

vulnerability of U.S. ruling elite Q2130

1. failure of reform fascism to pacify
2nd segments of population & their lead.
2. failing economy that cannot give
~~for~~ workers the means to survive
and cannot even keep workers
employed including white workers
3. international defeats by liberation
movements (Vietnam, Cuba,
Guinea Bissau, Mozambique)
4. TW countries getting their shit
together to oppose imperialism's rap of
(oil)
5. government corruption (Watergate)
6. repression esp. in TW communities
that backfires because it "breeds
resistance"
7. Necessary inflation to keep profits
high that is making workers poorer
and more militant and essentially
backfires because workers cannot

2. centralization of police, military and
other forces of repression
3. more outright repression (L.A.)
4. more infiltration, intelligence work
among potential revolutionary elements
5. increase racist fervor among whites to

6. tighter links with labor elite
7. putting people with police backgrounds into other areas of control like welfare, education
8. create diversionary fears (outside enemy, ecology, terrorists, criminals)
9. opiates — religion, drugs (heroin by mafia & Methadon by gov't) sports, ratl causes (WIN program)
10. ^{coordinating &} Consolidating gov't agencies like housing, welfare etc for more efficient control of population
11. Segregation of TW communities in ghetto areas or relocation thru redevelopment so population is where pigs want it for their programs of control.
12. ID programs in school & work places
13. Automation that makes workers expendable

The questioned typewriting on the page captioned "FASCISM" and page beginning "7. The conclusion was reached that the questioned typewriting on the pages beginning "A. To fully ...," "to each other's ...," "Because we still ...," "Tania decided ..." and "Q. XXXXXXXX You stated ..." was prepared by the typewriter used in preparation of K119.

WRITING COMPARISONS

The conclusion was reached that the questioned handwriting, on the Q2165 items, except the handwritten corrections on the four typewritten pages and on the five photocopies of typewritten pages, was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

(C-115) A definite conclusion was not reached whether the remaining unidentified questioned handwriting on Q2165 was prepared by PATRICIA CAMPBELL HEARST, K32 and K92; EMILY HARRIS, K5, K6, K8, K9, K20 and K37; WILLIAM HARRIS, K45; STEVEN SOLIAH, K120; or PAT JEAN MC CARTHY, K486, whose writing was previously submitted in this case, or by JOSEPHINE M. However, similarities were observing in comparing the available writing of HEARST with portions of the script hand printing on Q2165.

- 2) defensiveness
- 3) propaganda

localism: isolation → deal via contacts

brother's complicity; we place too much
imp. on our actions

defensiveness: personal humors have an effect
on our analyses

our meanings → how to keep them off the
hysterical level

a) bad structure

b) have other outlets to the personal
emotions (eg. one-to-one level)

c) lack of discipline → we get into
jag-type behavior around guns
excessive research

d) we overreact to the bad aspects of
different left groups & organizations

* bring out the political content of
what's being said instead of dwelling
on the personal attacks in order to
deal w/ personal concerns better

we take subjective approach not
dialectical approach in order to build
unity (both personal & political); the
majority must be pushing for objective
not subjectivity

propaganda: this has been unsystematic
the whole group is unsystematic → must
get principles of unity together

nation) for national liberation and
self-determination? STT says no.
national liberation: anti-imperialism

self-determination: what is self-deter-

Q2165

The struggle against sexism in the SHF
gone through a process of evolution
Jan. 10, 1974 was a crucial point in our
history. The capture of our 2 comrades real
hurt us, and threw us into a panic
we lost strong soldiers, and it put us
the defensive. Several other comrades
forced underground. The atmosphere became
extremely intense

Our changed situation compelled us to
place primary importance on ^{obtaining} survival
military skills. Heavy emphasis was placed
on the military aspects of revolution, which
brought to light certain contradictions:
later in the area of sexism. The men took
the traditional roles of "instructors" and
"leaders" while the sisters struggled to
make themselves as "good" as the men.
While the women were perceived as being
"strong" (in an abstract sense), without realizing
it. Our concept of what a female guerrilla
should be, was male defined... we were
so selfless (so womanly) that we were
to put every other struggle for freedom and
self-determination ahead of our own.

Struggles against the most blatant forms of sexism took place on a one-to-one level. Virtually no struggles along this line took place on the collective level. There were 2 reasons for this: first, we ^{miserably} ~~thought~~ believed that one-on-one was more "respectful" and more productive, and 2nd we felt that survival & military issues were more imp. and deserving of collective attention than sexism and its resulting problems.

into trying to help the men ^{Q2185} get it
together. But we finally realized the
the way we were doing this was
crazy! We were trying to help them
even though they weren't making
any efforts to struggle w/ each other.
We wanted to work w/ them, but we just
couldn't be too patient about waiting
for them to get it together.

92165
Our unity moved us to a different level
in which we no longer feared ~~our~~ ^{our}
~~enghts~~ collective strength

As the women began to assert themselves
the larger group

As sisterhood developed the women became
a motive force in the collective. There
is tremendous strength and energy coming
on ~~the women~~ ^{us} that had been ~~suppressed~~ ^{repressed}
before, and because of this the whole group
is really moving ahead w/ incredible speed.
at we ^{still} weren't moving (as a collective) as fast
as we should have been. The men were dragged
in feet. ~~the men were dragged in feet~~
in sexism made them afraid of our strength

spite of the fact that they ~~would~~ could
intellectualize about ~~what~~ how great it was
jectively, subjectively they felt threatened.
in sexism also kept them isolated from
each other; competing w/ each other instead
~~and~~ supporting & helping each other grow.

orientation was totally toward the men in
a cell.

We realized that, as a group, we were male
oriented, and that most of us put very little
effort into ~~relating to each~~ struggling and
caring to each other, and discovering our
strengths as women.

not a struggle. Because like racism, sexism
is a foundation of capitalist oppression. Q115

I had to expose this contradiction and begin
to resolve it both ^{among the women as} ~~as a group of women~~ group, and
the all as a whole.

saw our conditioning to thinking of exclusive
personal ~~relationships~~ ^{relationships} as the ideal as being a
major barrier to dev. a strong collective

that makes exclusive personal relationships
~~seem desirable~~

1) our conditioning toward desiring exclusive
personal relationships

2) our conditioning to ~~passively accept~~ oppressive
sex roles.

↓

- order to ^{combat} ~~defeat~~ ~~win~~ ~~the~~ we had to attack
~~our~~ ~~our~~ ~~attention~~ ~~of~~ ~~2~~ ~~aspects~~ ~~of~~ ~~our~~ ~~bourgeois~~
conditioning which makes male supremacy
visible

this battle would have been lost for sure if ~~the~~
~~we~~ ~~hadn't~~ ~~been~~ ~~able~~ ~~to~~ ~~unite~~ ~~against~~ ~~the~~
around our common oppression as women. In
her words, if we hadn't ~~to~~ put our theory in

break down monogamous personal relationships
which had some degree of stability
but progressive ways of relating to men, the
~~successful women~~ we still had subjective fear
of relating to men in a strong & independent way
is was particularly hard for the heterosexual
ones, although, because of the heavy emphasis
the military and therefore the men, Gabe and
I were having trouble too. So realized we
had to smash the dependencies created by mono-
gamous ~~relationships~~ ^{relationships}, and to do this we had to
destroy monogamy in the cell.

Monogamy ^{creates conditions which} only serves to reinforce male supremacy
and the oppression of women. We began to destroy
attitudes that made us think that we had
to be monogamous; fear and passivity, the false
sense of security, jealousy and power trips.
We are the same attitudes that keep women &
men from relating openly & honestly to each
other. That force women into accepting a
subservient role, and force men to compete
with each other to see who can be the most macho.
It all sounds too simple the way it's been
done. In fact, breaking down traditional
relationships and establishing new ones

ugh a process of evolution. The culture of our 2
ade on Jan. 10, 1971 put us in the defend-
ing several other countries.

Our changed situation compelled us to place
primary importance on obtaining survival skills, and
the atmosphere became intensely military. Struggles
against sexism continued on a one-to-one level, but
these struggles just weren't as important as getting
men to teach us about weapons. As women our
primary focus was on becoming strong female
guerrillas. But without realizing it, our concept of
what a female guerrilla ~~was~~ should be was male de-
vised. We were so selfless... so womanly... we were
willing to put every other struggle for freedom and
self-determination ahead of our own!

A major contradiction soon became obvious ^{to us}; we were
struggling to become revolutionaries, but continuing
to relate to each other in a reactionary way. We had
to expose this contradiction and resolve it both
among the women as a group, and in the cell as
a whole. In order to combat sexism we began attacking
two aspects of our bourgeois conditioning that
make male supremacy possible: 1) conditioning that
makes exclusive personal relationships seem desirable
(monogamy) 2) conditioning that makes ^{people} feel "com-
table" accepting oppressive sex roles. This battle

practice. This unity had to be totally un-
promising because incorporating our demand of
dem and self-determination for women into all
pects of our lives meant that tremendous
changes in the cell had to take place.

as a secondary struggle. We failed to assert
ourselves as leaders - to protect our self-interests as
women - instead of seeing ourselves as revolutionary
feminists ~~or perhaps~~ (or perhaps we did see our selves
as such, but we sure didn't act it!) we behave
in a way that Firestone describes as "Ladies Aux.

that we would put everyone else's struggles for lib-

horribly backward way of thinking was, of course, the
result of years of 'female' upbringing. It was so
hard to see what was happening, because we weren't
aware of the nature of our oppression in the cell.
We were just so grateful to the men for taking the
time to teach us (so we could help save their asses!
It had been so isolated in the cell...)

The ways that weren't even obvious to us — in insidious ways that we had to search for in the simplest things we did.

we wanted to build relationships that weren't oppressive to us. We wanted to be sensitive to each other's needs on all levels. Exclusivity — the key to monopoly — can't be allowed in a collective → it's totally anti-collective. We are trying to develop ways of relating that are progressive, and will be some kind of model for future society.

in the past two years. Jan 10, 1974 was a
turning point in our history. The loss of our
comrades forced others ^{to go} underground, and
put us on the defensive. Our focus became in-
creasingly military. (Conditions we created ourselves - con-
ditions not received)
Almost all our energy was put into developing
military and survival skills. In this environ-
ment the men were able to assert themselves ^{in traditional} as
"structors" and "leaders," while the sisters struggle
to become guerrilla soldiers. But, without realizing, the
concept of a female guerrilla was male defined
and we were so selfless (so "womanly")... we were willing
to put every other liberation struggle ahead of our
own.

We weren't totally occupied w/ trying to be as good
as the men. Struggles against sexism did take
place on a one-to-one level, but we hardly ever
brought these struggles to the collective level. ~~We quickly~~
~~quickly~~ ~~centralized~~ ~~our~~ ~~struggles~~ ~~and~~ ~~we~~ ~~developed~~ ~~as~~ ~~men~~.

main reason for this was the fact that ~~the sisters~~ ^{we} ~~focused~~ ^{put}

Remarks:

The evidence described in the attached report is being returned separately. You are separately being advised of the pertinent latent fingerprint, radio engineering, cryptanalysis and firearms examinations.

For the information of recipient offices, K118 consists of typewriting samples obtained from Royal portable typewriter serial number A-1362557 (288-A-FBR-10). K119 consists of typewriting samples obtained from Smith-Corona portable typewriter serial number 4C 250443 (401-BR-37).

ADMINISTRATIVE PAGE

The typewriting on K118 does not contain sufficient individual identifying characteristics to permit identification. In comparing this typewriting with typewriting on the questioned items, which were found to be the same size and style, no characteristics were observed in the comparison to indicate that any typewriter other than the K118 typewriter was used in preparation of these questioned items.

No significant original typewriting was found in the items listed in the attached report to indicate that typewriters other than the K118 or K119 typewriters were used in preparation of any of these questioned items.

Attached for the assistance of recipient offices are photocopies of the questioned pages on which writing identifications were made.

Notations on some of the questioned pages indicate that at least one other writer may have prepared some of the entries on the submitted items. The manner in which some of these entries were made indicate that they could be entries made by WILLIAM HARRIS. As the Laboratory has previously advised, the available known writing of WILLIAM HARRIS was prepared in the early 1960's and may not be representative of his current writing habits. Attempts should be made to obtain and submit more contemporary known writing by HARRIS. Also, no adequate known hand printing is available for PATRICIA CAMPBELL BEARST or EMILY HARRIS.

Result of examination:

TYPEWRITING COMPARISONS

Q2083

The conclusion was reached that the typewriting on
the two-page typewritten document captioned "FAIRCHILD" was
prepared by the typewriter used in preparation of K119.

Q2084

The conclusion was reached that the typewriting on
the two-page typewritten document captioned "TRANSAMERICA" was
prepared by the typewriter used in preparation of K119.

Q2087

The conclusion was reached that the typewriting on
the two-page document captioned "BAKERY" was prepared by the
typewriter used in preparation of K119.

Q2088

It was concluded that the two pages of typewriting
beginning "WORLD AIRWAYS ..." and "Flying Tiger Corp. ..."
was prepared by the typewriter used to prepare K119.

Q2096

The questioned typewriting on the pages beginning "PLAN," "1. Cate opens," "Key," "IVILLE J. YOUNGER;" and "one electric" was prepared by the typewriter used to prepare K119.

Q2097

The conclusion was reached that the typewriting on the three pages beginning "NOTES * HEW," "NOTES - FOUNDATIONS" and "conduct pop" is the same size and style as the typewriting on K118, previously submitted; however, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether these items were prepared by the typewriter used to prepare K118. The typewriting on these three pages was not prepared by the typewriter used to prepare K119.

Q2098

The questioned typewriting on the typewritten page beginning "ACTIONS IN SUPPORT" is the same size and style as the K118 typewriting; however, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether this typewriting was prepared by the typewriter used to prepare K118. This questioned typewriting was not prepared by the typewriter used in preparation of K119.

WRITING COMPARISONS

Q2087

The conclusion was reached that the questioned handwriting on both sides of the page with writing beginning "B of A Marysville," except the two lines of writing at the bottom of the front side beginning "saw 7 employees" was prepared by EMILY HARRIS, K5, K6, K8, K9, L20 and K37.

The conclusion was reached that the questioned handwriting consisting of the bottom two lines beginning "saw 7 employees ..." on the above-mentioned page was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

The conclusion was reached that the questioned writing on the page beginning "Savings & Loan ..." and the questioned writing on the page beginning "Wells Fargo - La Sierra", except the blue ink questioned writing on the backside beginning "Possible Switches ..." was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2088

It was concluded that the majority of the questioned writing on the two pages captioned "S & P 1973" was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2094

The conclusion was reached that the questioned writing on the two sheets of paper beginning "Castle - Cooke ..." and "Safeway ..." and the questioned writing on the enclosed yellow card was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2095

The conclusion was reached that the majority of the questioned writing on the three Q2095 sheets of paper was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2096

The conclusion was reached that portions of the questioned writing on the pages beginning "S F Police Dept", "4000 people visit ..." and "Evil Younger ..." were prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37. Also,

similarities were observed in comparing the available writing of HARRIS with portions of the questioned writing on other pieces of paper with writing beginning "Criminal Research ...," "Donald G. Pouliot ...," "Tyrone Guyton ...," "Rough Sketch ..." and the blue and green ink entries on the page beginning "M I R 996 ..."

The conclusion was reached that the black ink entry "308-DRJ Robert Edward Mierkey 1938 Westover Dr. Pleasant Hill" on the above-mentioned page beginning "M I R 996 ..." was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

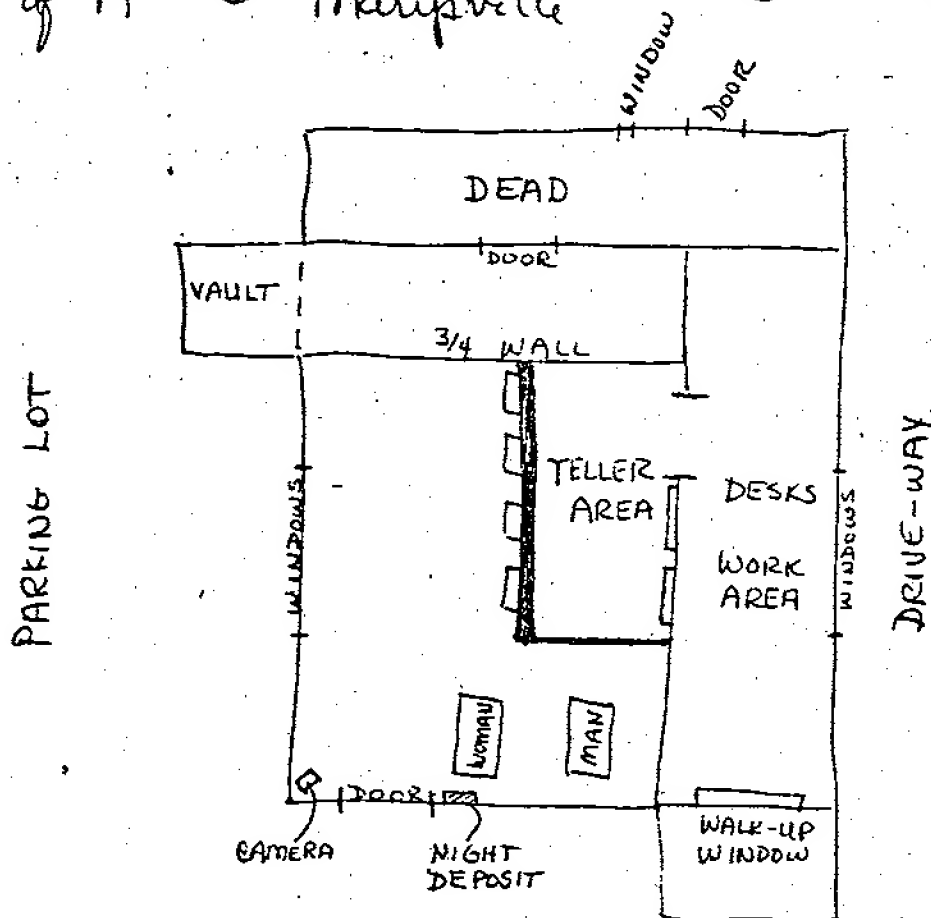

A definite conclusion was not reached whether the remaining unidentified questioned writing on the items described in this report was prepared by PATRICIA CAMPBELL HEARST, K32 and K92, EMILY HARRIS, K5, K6, K8, K9, K20 and K37, WILLIAM HARRIS, K45, STEVEN SOLIAN, K120, or PAT JEAN MC CARTHY, K122, whose writing was previously submitted in this case, or by JOSEPHINE M. SOLIAN, K41 and K4, KATHLEEN ANN SOLIAN, K3, or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 5746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; R2," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics or the lack of sufficiently comparable writing.

The documentary evidence described in this report was compared insofar as possible with documentary material previously submitted to the Laboratory in bombing matters wherein the Weather Underground organization, the New World Liberation Front or the Red Guerrilla Families claimed responsibility, but nothing of particular significance was noted nor were any associations made.

The evidence described in this report, which has been photographed, is being returned separately.

The United States Government has been very busy
frantically trying to keep its hands off the people's
and anxious for power. The people are at last
we will give birth to a new world.
The only way to do this is by force. We must
the people have no choice but to accept our
that you're tucked away in the back of the heart
will destroy the history and culture of the people.
The great purpose of the American people is
to live forever.

Field Marshall Cin. I would like to take this opportunity on behalf of the Federation
of the American People to state their opposition to the Federal Government's
policy of maintaining a balance of power between the various branches of the Government and educating the

people in the faith and unity to always serve the people.
To those who speak about what they want, to you I say that you know what I am talking about.

The following is a list of the names of the members of the Federation of the American People who have been elected to the National Council for the year 1964. The names are listed in alphabetical order by last name. The names are: [The following text is extremely faint and mostly illegible due to heavy noise and poor scan quality. 1 I would like to take this opportunity to speak to my dear black babies. Victor
2 Mom, sorry, Sherman, Ivan, and Della, I want you to know that I just say your
3 beating heart with joy, I want you to know that I love you all with all the love that
4 Father can have for those so dear to him, and I want you to understand also that I have
5 forgiven my precious baby you, that whenever you needed me, I would be there at your side
6 I am with you even when you may not see me, I am there because no matter where I am, I am
7 for your freedom, your future and your life. Daddy wants you to understand that I can
8 come here because you and the people are not free and as long as the enemy exists there
9 is no rest nor any hope for you or our people as a whole. I want to tell you that I have
10 murdered the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
11 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
12 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
13 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
14 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
15 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
16 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
17 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
18 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
19 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
20 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
21 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,
22 I have killed the enemy, I have killed the enemy, I have killed the enemy, I have killed the enemy,

1. The first of these is the fact that the United States has a long and proud history of leadership in the world. This leadership has been based on a commitment to the principles of democracy, freedom, and justice for all people. It is this commitment that has made the United States a model for other nations and a source of inspiration for people around the world.

~~I as Field Marshall Cin.~~ I would like to take this opportunity on behalf of the Federation
~~and Field Marshall Cin.~~ candidly make best use of this opportunity on behalf of the Federation
at Washington although I shall do my best to save their valuable time by speaking and educating the
people about our faith and unity to always serve the people.
I am talking about

The Government of the State of Ohio
 has the honor to acknowledge the receipt of
 your letter of the 10th inst. and in reply to
 inform you that the same has been forwarded
 to the proper authorities for their consideration.
 It is the policy of this Government to
 encourage the growth of the State and to
 promote the interests of the people and to
 maintain the peace and harmony of the State.
 Very respectfully,

Handwritten text, likely a letter or document, written in cursive script. The text is faint and difficult to read due to the quality of the scan. It appears to be a formal letter or a document of some kind, possibly a letter of introduction or a letter of recommendation. The text is written in a cursive script that is characteristic of the late 18th or early 19th century. The handwriting is elegant and flowing, with long, sweeping strokes. The text is arranged in several lines, with some lines being indented. The overall appearance is that of a handwritten document, possibly a letter or a document of some kind.

Handwritten signature or name, possibly "John Smith" or similar, written in cursive script.

Vertical text on the left margin, possibly a date or a reference number, written in a small, printed font.

They call them and her followers
Comrades in the name of you know very well
who the guilty ones are

They are the ones that murdered six
of her comrades in Los Angeles

Including her one and only love

An a true message she said her
Comrade did not even warn and that
she was strong and determined to fight
and fight she will and if they
only alone chance she needs more

Comrades here to fight like me
in Niagara falls and who are willing
to die for the S.P.A.

They are respected and loved by many
because they are a great band of warriors

To The Editor of the Negro Gazette

The other day I wrote you a letter
and you refuse to print it

I warn you I will not stand
by and see this happen again

Unless this following letter is
printed something dreadful will
happen to this dump you call a city
This is not only a threat, but also
a fact

I have called them one of the fellows
and we have known each other very well
for a long time.

They are the ones that murdered
the Canadian in Los Angeles.
I don't know if it was only one.

A few days ago she said she
was in the hospital in New York and
she was strong and determined to fight
and that she would not let
any chance slip past her.

She said she was in the

she was very strong and
determined to fight.

She was a respected and loved by many
and she was a great band of warriors.

THEY ARE ALL ALIVE FOREVER

K32 Journal of European trip bearing purported writing of
PATRICIA CAMPBELL HEARST

Result of examination:

The conclusion was reached that the majority of the questioned written notations on Q55, previously submitted, were prepared by PATRICIA CAMPBELL HEARST, purported writer of K32.

A definite conclusion was not reached whether the remaining unidentified questioned writing on items submitted in this case or in case captioned "SYMBIONESE LIBERATION ARMY (SLA) EM", was prepared by HEARST. However, nothing of particular significance was observed in comparing the majority of the comparable unidentified questioned writing on items in these cases with the available writing of HEARST.

K32, which has been photographed, is attached.

Result of examination:

The conclusion was reached that the majority of the questioned written notations on Q55 were prepared by PATRICIA CAMPBELL HEARST, writer of K32 and K92. Also, significant handwriting similarities were observed in comparing the available known writing of HEARST with the notation "Patria O Muerte Venceremos Tania" appearing in the Q01086 photograph and the Hearst signatures on Q175, Q1387 and Q1389 which indicate these writings were probably prepared by HEARST. Additionally, some similarities were observed in comparing the entry "Tania 1974" on the Q173 photograph with the writing of HEARST, which indicate she may also have prepared this entry.

Nothing of particular significance was observed in comparing the majority of the remaining questioned writing on the items submitted in this case and in case captioned "Symbionese Liberation Army (SLA) EM" with the writing of HEARST on K32 and K92.

K32 and K92, which have been photographed, are attached.

TYPEWRITING COMPARISONSQ2165

The questioned typewriting on the page captioned "FASCISM" and page beginning "7. The conclusion was reached that the questioned typewriting on the pages beginning "A. To fully ...," "to each other's ...," "Because we still ...," "Tania decided ..." and "Q. XXXXXXXX You stated ..." was prepared by the typewriter used in preparation of K119.

WRITING COMPARISONS

The conclusion was reached that the questioned handwriting, on the Q2165 items, except the handwritten corrections on the four typewritten pages and on the five photocopies of typewritten pages, was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

16.125 A definite conclusion was not reached whether the remaining unidentified questioned handwriting on Q2165 was prepared by PATRICIA CAMPBELL HEARST, K32 and K92; EMILY HARRIS, K5, K6, K8, K9, K20 and K37; WILLIAM HARRIS, K45; STEVEN SOLIAH, K120; or PAT JEAN MC CARTHY, K486, whose writing was previously submitted in this case, or by JOSEPHINE M. SOLIAH, Kcl and K4; KATHLEEN ANN SOLIAH, K3; or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 5746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; BR," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics and the lack of sufficiently comparable writing. However, similarities were observed in comparing the available writing of HEARST with portions of the script hand printing on Q2165.

Q2165, which has been photographed, is being returned separately.

TYPEWRITING COMPARISONS

The K118 typewriting does not contain sufficient individual identifying characteristics to permit identification; therefore, in those instances described below where

questioned typewriting was found to be the same size and style as the K118 typewriter, a definite conclusion was not reached whether that questioned typewriting was prepared by the typewriter used in preparation of K118.

Q2064

The questioned typewriting on the one Q2064 typewritten page is the same size and style as the K118 typewriting.

Q2065

The typewriting on the eight-page typewritten document beginning on the first page "Q. Why did the SIA-44" and ending on the eighth page "in their rhetoric" was prepared by the typewriter used in preparation of K118. These pages have been marked with an asterisk in the lower right corner of each page.

The typewriting on the Q2065 twenty-seven page typewritten document captioned "Tania Interview" is the same size and style as the K118 typewriting.

Q2066

Typewriting characteristics in common were observed in comparing the typewriting on the photocopies of the seven typewritten pages in Q2066 with the K119 typewriting, which indicate the typewriting on the pages from which these photocopies were made was probably prepared using the typewriter used in preparation of K119.

Q2067

Typewriting characteristics in common were observed in comparing the photocopies of typewritten pages with the K119 typewriting, which indicate the typewriting on the pages

from which these Q2067 photocopies were made was probably prepared using the typewriter used in preparation of K119.

Q2071

The conclusion was reached that the typewriting shown on the photocopy pages of Q2071 was not prepared using the typewriters used in preparation of K118 or K119.

The typewriting on these photocopy pages correspond to Laboratory standards for a type style manufactured by Brother Industries, Nagoya, Japan, probably spaced 231 mm per one hundred characters and used on typewriters manufactured under brand names including Signature, Wizard, Webster, Bradford, Typemaster and T.V.B.

Q2074

The conclusion was reached that the questioned typewriting on the three pages having typewriting on both sides of each page, with sides numbered 6, 7, 8, 159, 160 and 161, was prepared by the typewriter used to prepare K119. These pages were marked with an asterisk in the lower right corner of each page.

The remaining questioned typewriting on the Q2074 items is the same size and style as the K118 typewriting.

WRITING COMPARISONS

Q2065

The conclusion was reached that the questioned handwriting beginning "When in fact ..." on page six of the twenty-seven page typewritten document captioned

"Tania Interview" with typewriting on page six beginning "business. He's a ..." was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kc125.

Also, significant similarities were observed in comparing the handwritten notation "In the evening news" on page four of the Q2065 eight-page typewritten document with typewriting on this page beginning "A. Con trary to ..." with the available writing of HEARST, which indicate she probably prepared this questioned notation.

Q2066

The conclusion was reached that the questioned handwriting on the Q2066 page with writing captioned "U.S. Gov't" except the notation "Supply Ag" was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kc125.

Q2067

Significant similarities were observed in comparing the written entry "political statement from" on the photocopy of the typewritten page numbered eleven in a circle with typewriting beginning "organization of the ..." with available writing of PATRICIA CAMPBELL HEARST, K32, K92 and Kc125, which indicate she probably prepared this questioned writing.

The conclusion was reached that the majority of the green ink questioned writing on the Q2067 sheets of stenographic notebook paper was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Similarities were also observed in comparing other written entries on several of the Q2067 photocopy pages with available writing of EMILY HARRIS, which indicate she may have prepared these questioned written entries.

Q2070

The conclusion was reached that the majority of the questioned writing beginning with the entry "19. Ex. Switchboard ..." on page five of the Q2070 notebook and the majority of the questioned writing on the backside of the fifth page was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kc125.

Also, similarities were observed in comparing the questioned notations "A Gentleman's Choice" and "Adelson's" on the fourth page of the Q2070 notebook and the notation "Answering & Bus. Serv." on the backside of that page with available writing of PATRICIA CAMPBELL HEARST, which indicate she probably also prepared this questioned writing.

The conclusion was reached that the majority of the remaining questioned writing in the Q2070 notebook was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2074

The conclusion was reached that the questioned handwriting on the sheet of paper bearing carbon copy typewriting beginning "empty materialism of ..." and the handwritten notation "women at same time: 11 development" in the margin of the photocopy of the typewritten page numbered three in a circle with marked out typewriting beginning "who have brought ..." was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kc125.

Also, similarities were observed in comparing the following handwritten notations with writing of HEARST, which indicate she may also have prepared these notations:

The handwritten notations "(like Gloria Stinham & Jane Alpert)" and "devastating" on the typewritten page numbered seven with typewriting beginning "truely powerful ..."

The handwritten notations on the page of carbon copy typewriting beginning "exhausted and, to...."

The handwritten notations on the page of carbon copy typewriting beginning "for oppression and ..."

The handwritten notation "not strong enough" on the page of carbon copy typewriting beginning "preconceptions of ..."

A definite conclusion was not reached whether the remaining unidentified questioned writing on the items described in this report was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kcl25, EMILY HARRIS, K5, K6, K8, K9, K20 and K37, WILLIAM HARRIS, K45, STEVEN SOLIAH, K120, or PAT JEAN MC CARTHY, K486, whose writings were previously submitted in this case, or by JOSEPHINE M. SOLIAH, Kcl and K4, KATHLEEN ANN SOLIAH, K3, or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 5746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; BR," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics or the lack of sufficiently comparable writing.

The documentary evidence described in this report was compared insofar as possible with documentary material previously submitted to the Laboratory in bombing matters wherein the Weather Underground organization, the New World Liberation Front or the Red Guerrilla Families claimed responsibility, but nothing of particular significance was noted nor were any associations made.

The evidence described in this report, which has been photographed, is being returned separately.

Result of examination:

TYPEWRITING COMPARISONS

Q2083

The conclusion was reached that the typewriting on
the two-page typewritten document captioned "FAIRCHILD" was
prepared by the typewriter used in preparation of K119.

Q2084

The conclusion was reached that the typewriting on
the two-page typewritten document captioned "TRANSAMERICA" was
prepared by the typewriter used in preparation of K119.

Q2087

The conclusion was reached that the typewriting on
the two-page document captioned "BAKERY" was prepared by the
typewriter used in preparation of K119.

Q2088

It was concluded that the two pages of typewriting
beginning "WORLD AIRWAYS ..." and "Flying Tiger Corp. ..."
was prepared by the typewriter used to prepare K119.

Q2096

The questioned typewriting on the pages beginning "PLAN", "1. Gate opens", "Key", "EVELLE J. YOUNGER; ..." and "one electric ..." was prepared by the typewriter used to prepare K119.

Q2097

The conclusion was reached that the typewriting on the three pages beginning "NOTES * NEW", "NOTES - FOUNDATIONS ..." and "conduct pop ..." is the same size and style as the typewriting on K118, previously submitted; however, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether these items were prepared by the typewriter used to prepare K118. The typewriting on these three pages was not prepared by the typewriter used to prepare K119.

Q2098

The questioned typewriting on the typewritten page beginning "ACTIONS IN SUPPORT ..." is the same size and style as the K118 typewriting; however, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether this typewriting was prepared by the typewriter used to prepare K118. This questioned typewriting was not prepared by the typewriter used in preparation of K119.

WRITING COMPARISONS

Q2087

The conclusion was reached that the questioned handwriting on both sides of the page with writing beginning "B of A Marysville," except the two lines of writing at the bottom of the front side beginning "saw 7 employees ..." was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

The conclusion was reached that the questioned handwriting consisting of the bottom two lines beginning "saw 7 employees ..." on the above-mentioned page was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

The conclusion was reached that the questioned writing on the page beginning "Eavings & Loan ..." and the questioned writing on the page beginning "Wells Fargo - La Sierra ..." except the blue ink questioned writing on the backside beginning "Possible Switches ..." was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2028

It was concluded that the majority of the questioned writing on the two pages captioned "S & P 1973" was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2024

The conclusion was reached that the questioned writing on the two sheets of paper beginning "Castle - Cooke ..." and "Safeway ..." and the questioned writing on the enclosed yellow card was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2095

The conclusion was reached that the majority of the questioned writing on the three Q2095 sheets of paper was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2096

The conclusion was reached that portions of the questioned writing on the pages beginning "S F Police Dept ...", "4000 people visit ..." and "Evil Younger ..." were prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37. Also,

similarities were observed in comparing the available writing of HARRIS with portions of the questioned writing on other pieces of paper with writing beginning "Criminal Research ...," "Donald G. Pouliot ...," "Tyrone Guyton ...," "Rough Sketch ..." and the blue and green ink entries on the page beginning "M I R 996 ..."

The conclusion was reached that the black ink entry "302-DR3 Robert Edward Mierkey 1938 Westover Dr. Pleasant Hill" on the above-mentioned page beginning "M I R 996 ..." was prepared by PATRICIA CAMPBELL HEARSEY, K32 and K92.

A definite conclusion was not reached whether the remaining unidentified questioned writing on the items described in this report was prepared by PATRICIA CAMPBELL HEARSEY, K32 and K92, EMILY HARRIS, K5, K6, K8, K9, K20 and K37, WILLIAM HARRIS, K45, STEVEN SOLIAN, K120, or PAT JEAN MC CARTHY, K42. These writings were previously submitted in this case, or by JOSEPHINE M. SOLIAN, K41 and K4, KATHLEEN ANN SOLIAN, K3, or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 3746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; RR," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics or the lack of sufficiently comparable writing.

The documentary evidence described in this report was compared insofar as possible with documentary material previously submitted to the Laboratory in bombing matters wherein the Weather Underground Organization, the New World Liberation Front or the Red Guerrilla Families claimed responsibility, but nothing of particular significance was noted nor were any associations made.

The evidence described in this report, which has been photographed, is being returned separately.

- Q2149 Wells Fargo Bank Gold Account card signed "Edmond R. Ergut" (#288-A-FBR-11)

Result of examination:

TYPEWRITING COMPARISONS

Q2135

The questioned typewriting on the Q2135 piece of paper is the same size and style and bears characteristics in common with the K119 typewriting, which indicate the typewriter used to prepare K119 may have been used to prepare this questioned typewriting.

WRITING COMPARISONS

Q2100 and Q2101

Characteristics observed indicate that the questioned writing on Q2100 and Q2101 was prepared by one person.

Q2104

Some similarities were observed in comparing the questioned writing on Q2104 with the available writing of EMILY HARRIS, K5, K6, K8, K9, K20 and K37, which indicate she may have prepared this questioned writing.

Q2133

Similarities were observed in comparing the questioned handwritten caption "General Info" on the Q2133 manila envelope with available writing of PATRICIA CAMPBELL HEARST, K32, K92 and Kc125, which indicate she may have prepared this questioned writing.

Q2135

Similarities were observed in comparing the Lanphear signatures on the Q2135 Sacramento City College Student Identification Card and the Sacramento City College Registration and Library Card and the writing of EMILY HARRIS, K5, K6, K8, K9, K20 and K37, which indicate she may have prepared these signatures.

OTHER EXAMINATIONS

Q2141

Photographs of the used sheets of carbon paper contained in Q2141 were made and are enclosed.

Q2144

The Q2144 map of Orange County, California, bears written notations "Ball Euclid left Chris" on the cover. "Pacific Ave" is circled in the map's street index and the

notation "8.00 69969" is marked on the map in the area of Stanton, California. Also, markings were observed in the area of Stanton, California. Two markings were found in the area of Fullerton, California.

A definite conclusion was not reached whether the remaining unidentified questioned writing on the items described in this report was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kcl25, EMILY HARRIS, K5, K6, K8, K9, K20 and K37, WILLIAM HARRIS, K45, STEVEN SOLIAH, K120, or PAT JEAN MC CARTHY, K486, whose writings were previously submitted in this case, or by JOSEPHINE M. SOLIAH, Kcl and K4, KATHLEEN ANN SOLIAH, K3, or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 5746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; BR," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics or the lack of sufficiently comparable writing.

- Q2132 Large brown envelope captioned "Birth Certificate" containing two white envelopes with copies of birth certificates (#288-B-35)

Result of examination:

TYPEWRITING COMPARISONS

The known typewriting, K118, does not contain sufficient individual identifying characteristics to permit identification; therefore, where questioned typewriting was found to be the same size and style as the K118 typewriting, a definite conclusion was not possible whether that questioned typewriting was prepared by the typewriter used to prepare K118.

Q2122

The conclusion was reached that the questioned typewriting on Q2122 was prepared by the typewriter used in preparation of K119.

Q2123

The questioned original and carbon copy typewriting was prepared by the typewriter used to prepare K119.

The six-page typewritten document (photocopies) captioned "THE SYMBIONESE FEDERATION & THE SYMBIONESE LIBERATION ARMY DECLARATION OF REVOLUTIONARY WAR & THE SYMBIONESE PROGRAM" was not prepared by the typewriters used in preparation of K118 or K119. The remaining photocopies in Q2123 were made from other Q2123 typewritten pages.

Q2124

The questioned typewriting was prepared by the typewriter used to prepare K119.

Q2125

The questioned typewriting on pages numbered in circles in the upper left-hand corners 2, 3, 4, 5 and 8 respectively, and beginning "U.S. imperialism is ...," "Strategy For Victory In ...," "revolutionary movement ...," "between class solidarity ..." and "Mass Front and the ..." is the same size and style as the typewriting on K118.

The remaining questioned typewriting on the Q2125 items was prepared by the typewriter used in preparation of K119.

Q2126

The questioned typewriting on the Q2126 items was prepared by the typewriter used to prepare K119.

Q2127

Thirty-three (33) typewritten pages included in Q2127 were prepared by the typewriter used to prepare K119. These pages have been marked with an asterisk in the lower right corner of each page.

Six (6) of the Q2127 typewritten pages contain some typewriting prepared by the typewriter used to prepare K119. It was noted that portions of the typewriting on these pages were typed directly onto the page and portions onto other pages which were cut out and attached to the Q2127 pages. Other portions of these six (6) pages are the same size and style as the K118 typewriting. These six (6) pages have been marked by placing an asterisk in the lower left corner of each page.

The typewriting on the remaining twenty-six (26) Q2127 pages of typewriting is the same size and style as the K118 typewriting.

Q2128

The typewriting on twenty-eight (28) typewritten pages was prepared by the typewriter used to prepare K119. These pages were marked with an asterisk in the lower right corner of each page.

The typewriting on the remaining Q2128 typewritten pages is the same size and style as the typewriter used to prepare K118.

Q2130

The questioned typewriting on the pages captioned "----- THANKS FOR PICKING ..." and "LEADERSHIP" and the page with typewriting beginning "My life really ..." were prepared by the typewriter used to prepare K119.

The questioned typewriting on the remaining Q2130 pages is the same size and style as the K118 typewriting.

Q2131

The conclusion was reached that the questioned typewriting on the Q2131 items was prepared by the typewriter used in preparation of K119.

WRITING COMPARISONS

Q2124

The conclusion was reached that the majority of the questioned handwriting on the two pages with typewriting beginning "Q. Going in ..." and "these drawers are ..." was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

The conclusion was reached that the majority of the remaining questioned handwriting on items in Q2124 was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Q2125

Significant similarities were observed in comparing the written notation "political statement from" on the Q2125 typewritten page numbered in black ink "23" in the upper left corner and containing typewriting beginning "organization of the ..." with the available writing of PATRICIA CAMPBELL HEARST which indicate she probably prepared this notation.

The conclusion was reached that the questioned handwriting on the back of the typewritten page numbered in black ink in the upper left-hand corner "13" with typewriting beginning "Clearly we are not ..." and blue ink questioned handwriting on the back of the typewritten piece of paper attached to a typewritten piece of paper numbered in black ink in the upper left-hand corner "12" with typewriting beginning "and confidence and ..." were prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Also, similarities were observed in comparing the written entries on some typewritten pages, especially pages numbered in black ink in the upper left-hand corners "10," "11" and "12" respectively, with typewriting beginning "Q. The media of ...," "Clandestine urban ..." and "and confidence and ..." with the writing of EMILY HARRIS which indicate she may also have prepared these entries.

Q2126

The conclusion was reached that the questioned handwritten notation on the typewritten page with typewriting beginning "Q. What about the individual ..." and the questioned blue ink written entry beginning "wanted to ..." on the back side of the typewritten page numbered "4" with typewriting beginning "of a pig assault ..." were prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

The conclusion was reached that the majority of the questioned handwriting on the following described pages was prepared by EMILY HARRIS:

The typewritten page numbered "T/p. 1" with typewriting beginning "Q. Since you ..."

Typewritten page numbered "114" with typewriting beginning "looking for you ..."

Typewritten page numbered "117" with typewriting beginning "took whatever ..."

Typewritten page numbered "18" with typewriting beginning "above ground on ..."

Typewritten page numbered "19" with typewriting beginning "from the local ..."

Typewritten piece of paper with typewriting beginning "ence between ..."

Handwriting on a piece of paper with writing beginning "date for Fahizah's ..."

Significant similarities observed indicate that the handwritten notations on the typewritten pages numbered 104 through 113, 115 and 116 were probably prepared by EMILY HARRIS, K5, K6, K3, K9, K20 and K37.

Q2127

The conclusion was reached that the questioned handwriting on the back side of the two typewritten pages numbered "6" and "17" with typewriting beginning "started to understand ..." and "Gina was a beautiful ..." was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37.

Also, significant similarities were observed in comparing the majority of the questioned handwritten entries on the remaining Q2127 items with writing of EMILY HARRIS, which indicate she probably prepared the majority of this questioned handwriting.

Q2128

The conclusion was reached the handwritten notation beginning "To The People: If you ..." on the photocopy of a newspaper page with article captioned "SLA'S LAST TAPE TO HEARST" was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

Q2130

The conclusion was reached that the majority of the questioned handwriting on the sheet of stenographic notebook paper was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37. However, similarities were observed in comparing the handwritten notation beginning "2) 146 Peralta ..." on the bottom of this sheet of stenographic notebook paper with the writing of PATRICIA CAMPBELL HEARST, which indicate she probably prepared this notation.

The conclusion was reached that the questioned handwriting on the back side of the sheet of notebook paper with handwriting beginning "Sierra Club" was prepared by PATRICIA CAMPBELL HEARST, K32 and K92.

The conclusion was reached that the majority of the questioned handwriting on the remaining sheets of notebook paper, except the sheet captioned "Pins" was prepared by EMILY HARRIS, K5, K6, K8, K9, K20 and K37. Also, similarities were observed in comparing the questioned handwriting on the sheet of notebook paper captioned "Pins" with the writing of EMILY HARRIS which indicate this questioned handwriting was probably prepared by her.

A definite conclusion was not reached whether the remaining unidentified questioned handwriting on the items described in this report was prepared by PATRICIA CAMPBELL HEARST, K32 and K92, EMILY HARRIS, K5, K6, K8, K9, K20 and

K37, WILLIAM HARRIS, K45, STEVEN SOLIAH, K120, or PAT JEAN MC CARTHY, K486, whose writing was previously submitted in this case, or by JOSEPHINE M. SOLIAH, Kc1 and K4, KATHLEEN ANN SOLIAH, K3, or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 5746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; BP," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics or the lack of sufficiently comparable writing.

The documentary evidence described in this report was compared insofar as possible with documentary material previously submitted to the Laboratory in bombing matters wherein the Weather Underground organization, the New World Liberation Front or the Red Guerrilla Families claimed responsibility, but nothing of particular significance was noted nor were any associations made.

The evidence described in this report, which has been photographed, is being returned separately.

TYPEWRITING COMPARISONS

Q2153

Portions of the typewriting on Q2153 correspond to Laboratory standards for an Olympia elite style of type. Other portions of the typewriting on Q2153 correspond to Laboratory standards for a Smith-Corona (SCM) elite style of type. The remaining portions of the typewriting on Q2153 correspond to Laboratory standards for an Underwood pica style of type. The Q2153 typewritings were not associated with the typewriting on K118 and K119.

Q2155

Portions of the typewriting on Q2155 correspond to Laboratory standards for a Hermes or Halda/Facit elite style of type. Other portions of the typewriting on Q2155 correspond to Laboratory standards for a Smith-Corona (SCM) or Remington elite style of type. The remaining typewriting on Q2155 corresponds to Laboratory standards for an IBM style of type. The conclusion was reached that the typewriting on Q2155 was not prepared by the typewriters used in preparation of K118 or K119.

Q2163

The typewriting on the six photocopy Q2163 typewritten pages is the same size and style and bears characteristics in common with the typewriting on K119, which indicate that the typewriting on these Q2163 pages was probably prepared by the typewriter used in preparation of K119.

Q2168

The conclusion was reached that the typewriting appearing on Q2168 was not prepared by the typewriters used to prepare K118 or K119.

Q2173

The conclusion was reached that the typewriting on Q2173 was not prepared by the typewriters used in preparation of K118 or K119.

The typewriting on Q2173 corresponds to Laboratory standards for an IBM elite style of type.

Q2180

The typewriting appearing on Q2180 is the same size and style as the K118 typewriting; although, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether the Q2180 typewriting was prepared by the typewriter used in preparation of K118.

Q2186

The conclusion was reached that the typewriting on Q2186 was not prepared by the typewriters used to prepare K118 or K119.

Q2197

The questioned typewriting on the two Q2197 typewritten pages except the typewritten caption on one page reading "MARXISM*LENINISM-MAO TSE-TUNG THOUGHT" was prepared by the typewriter used in preparation of K119.

The typewritten caption on Q2197 quoted above on one typewritten page is the same size and style as the K118 typewriting; although, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether this typewritten caption was prepared by the typewriter used to prepare K118.

Q2198

It was concluded that the questioned typewriting on the two Q2198 typewritten pages bearing typewritten captions in the upper left corners "MARXISM" and "LENINISM" was prepared by the typewriter used to prepare K119.

The questioned typewriting on the remaining five Q2198 typewritten pages is the same size and style as the K118 typewriting; although, due to the lack of sufficient individual identifying characteristics, a definite conclusion was not reached whether these items were prepared by the typewriter used to prepare K118.

Q2201

The questioned typewriting on Q2201 is the same size and style and bears some characteristics in common with the K119 typewriting, which indicate this questioned typewriting may have been prepared by the typewriter used in preparation of K119.

Q2205

The questioned typewriting on Q2205 is the same size and style and bears some characteristics in common with the K119 typewriting, which indicate this questioned typewriting may have been prepared by the typewriter used to prepare K119.

Q2175

Similarities observed indicate that the questioned writing on Q2175 and the questioned writing on Q2100 and Q2101 was prepared by the same person.

Q2192 and Q2194

Similarities were observed in comparing the "Mrs. C. Barber" signatures on Q2192 and Q2194 with writing of PATRICIA CAMPBELL HEARST, which indicate she may have prepared these signatures.

Q2204

Similarities were observed in comparing the questioned writing on Q2204 with the writing of PATRICIA CAMPBELL HEARST, K32, K92 and Kcl25, which indicate she may have prepared this questioned writing.

Q2206 and Q2207

Similarities were observed in comparing the questioned writing on Q2206 and Q2207 with writing of PATRICIA CAMPBELL HEARST, K32, K92 and Kcl25, which indicate she may have prepared this questioned writing.

Q2208

The conclusion was reached that the questioned handwriting on Q2208 was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kcl25. Also, similarities were

observed in comparing the questioned hand printing on Q2208 with available writing of HEARST, which indicate she may have prepared this questioned writing.

A definite conclusion was not reached whether the remaining unidentified questioned writing on the items described in this report was prepared by PATRICIA CAMPBELL HEARST, K32, K92 and Kc125, EMILY HARRIS, K5, K6, K8, K9, K20 and K37, WILLIAM HARRIS, K45, STEVEN SOLIAH, K120, or PAT JEAN MC CARTHY, K486, whose writings were previously submitted in this case, or by JOSEPHINE M. SOLIAH, Kc1 and K4, KATHLEEN ANN SOLIAH, K3, or WILLIAM KILGORE, K2, whose writings were submitted in case captioned "UNSUBS (5); CROCKER BANK, 5746 MARCONI AVENUE, CARMICHAEL, CALIFORNIA, 4/21/75; BR," due to the limited amount of some written entries, the presence of unexplained handwriting characteristics or the lack of sufficiently comparable writing.

The documentary evidence described in this report was compared insofar as possible with documentary material previously submitted to the Laboratory in bombing matters wherein the Weather Underground organization, the New World Liberation Front or the Red Guerrilla Families claimed responsibility, but nothing of particular significance was noted nor were any associations made.

The evidence described in this report, which has been photographed, is being returned separately.

Shes Police

A San Rafael man
trial for two murders ac-
cused a Richmond police de-
tective yesterday of making
money through the sale of
manufactured illegal drugs.

The witness told the jury in the San Rafael court
that he was recruited in January 1973 by the Narcotics
Strike Force, headed by former state narcotics agent
Bill VanReam.

When he learned he was given immunity from prose-
cution on taxes owed on smuggling profits, defense attor-
ney J. Tom Schagel said he could not recall
and \$6 million. Schagel said he could not recall.

Asked how much federal money was being paid him,
Schagel replied: "I can't say."
He said he was in the San Francisco
(quarters).

A high-contrast, black and white photograph of a textured surface, possibly a book cover or endpaper. The image is dominated by a large, dark, curved shape that resembles a stylized letter 'C' or a decorative element. The background is a complex, grainy texture with various shades of gray and black, suggesting a rough or aged material. The lighting is dramatic, with deep shadows and bright highlights, emphasizing the texture and the central shape.
